**N Hants: Scarce**

Native

Nearly all records are clustered on the dry sandy soils between Oakhanger and Broxhead Common, usually on well-drained, raised road verges. The record at Andover needs confirming. There are also tetrad-level records for Lower Froyle (SU74S) in 1969 and Shortheath (SU73T) in 1954.

<b>Andover, Churchill Way</b>	<b>SU3845</b>	<b>2001</b>
