

**Filago pyramidata, 1990-2023, at least 6 fig grid ref      Best to Search: July - August**

Yellow highlighting is for sites I favour visiting first

Site Name	Gridref	Date	Comment
SU2148 VC12 Outside Golf Course	SU2148	01-Aug-16	An outpost of the SPTA(E) colony centred on CCDA. 5 at SU2161 4880, 50 at SU2175 4860, 5 at SU2171 4876.

In fact, all those three grid refs are in Wiltshire. The nearest to Hampshire is SU2175 4860 which is only 30m beyond the border, so it would be worth searching on the Hampshire side of the border nearby, armed with a map showing the accurate border.
